Introduction

After the success of the first edition of Iraq Insurance Conference, we are delighted to announce the second edition of this one of its kind event in Iraq. This conference represents a major milestone for the Iraqi insurance sector. Through this conference we aim to establish the foundation for a comprehensive national vision that will move insurance from the margins to the heart of the development and stability equation.

We will bring together experts and specialists from inside and outside Iraq, along with decision-makers in the Iraqi government, in a single event. This event will serve as an important platform for exchanging ideas and listening to success stories from the region. It is not merely a technical event or professional discussion, but rather a clear declaration that Iraq is determined to build a secure, integrated and investment-attractive economic environment.

«We are not just announcing a conference, but rather establishing an annual tradition that places insurance on the national agenda and contributes to protecting individuals, projects, and infrastructure.»

IRAQ INSURANCE

مؤتمر التأمين في العراق

Why Iraq Insurance Conference?

Iraq is currently undergoing a critical phase in rebuilding its economy and institutions. It is therefore imperative to reconsider the essential roles played by vital sectors, most notably the insurance sector, as a pillar of financial, social, and economic stability.

- Insurance awareness remains limited and needs to be developed at the individual and institutional levels.
- Legislation and regulatory systems need to be updated to reflect contemporary developments and market requirements, a topic that will be discussed at this event.
- The Iraqi economy needs effective protection tools to counter unforeseen risks, from natural disasters to financial fluctuations.
- Local and international investors seek a secure and reliable environment before investing their money.
- Insurance is no longer a luxury; it has become an essential guarantee for the continued stability and security of economic and social life.
- The absence of Third-Party Liability Insurance and Mandatory Insurance overall.

Who Participates at IIC?

- Central Bank of Iraq
- Iraqi Insurance Diwan
- Iraqi Parliament
- Iraqi Association of Insurers and Reinsurers
- Insurance and Reinsurance Companies and Brokers
- Loss Adjusters Institutions
- Local Banks
- E-payment Companies
- Finance and Investment Companies
- Risk Management Companies
- Oil & Gas Sector
- Industrial & Commercial Institutions
- International Organizations

«Participation in this event is not limited to a specific party, as insurance is involved in every detail of life»
